Christmas Saving Plan

VAUGHAN & BURNETT, JEWELLERS

Present to the people of Brattleboro and vicinity, a plan which makes it easy to purchase any article in the store by making small weekly payments. A somewhat similar plan proved a big success last year and for the benefit of those not familiar with it, this will explain.

The plan is of unusual interest to those who desire to buy Christmas Gifts, but is equally interesting to those who desire to purchase for personal use.

THE AMOUNT OF WEEKLY PAYMENTS IS LEFT ENTIRELY TO THE CUSTOMER

Those who begin early have the advantage of more time and smaller weekly payments.

Upon first payment, a deposit receipt card is issued and each payment thereafter is entered until the article is paid for and delivered.

We will be pleased to explain this new plan in detail to those who call at our store.

FAMILY REUNION AFTER 37 YEARS

Four Survivors of Family of
11 Children Meet in
Brattleboro

GEORGE TRENDALL
WAS THOUGHT DEAD

Recently Heard From in Philadelphia—
Others Are William of Windsor and
Alfred C. and Mrs. Matilda Knights
of This Town.

Four survivors of a Brattleboro family of 11 children held a reunion in this town a few days ago, which was the first time they had gotten together in 37 years. They were William Trendall of Windsor, George E. Trendall of Philadelphia, and Alfred C. Trendall and Mrs. Matilda Knights of Brattleboro. They met in the home of Mrs. Knights, who lives in the north Waterhouse building on Elliot street.

All of the 11 children were born in this town. The death of the mother broke up the home and the members of the family

separated and drifted apart, some, however, remaining in Vermont. All are now dead but the four named above. George was one who drifted farthest afield. His sister heard from him at intervals, but after a few years he failed to write and all trace of him was lost. From time to time rumors reached the members of the family who remained in Vermont of their brother, one being that he had married a Swedish woman and that they had gone to Sweden to live, which rumor George now pronounced without foundation. However, he failed to write, and as the years passed on and nothing was heard from him, his brothers and sister believed him dead. Recently they heard that he was living in Philadelphia and William wrote to him. He replied soon after and arrangements for his coming to Vermont and for the reunion in Brattleboro were quickly made.

George Trendall, the so long missing brother, at one time lived in Windsor and worked for Watson Blanchard, when the latter did the wood sawing for the railroads at the time wood was burned in the engines instead of coal.

Alfred C. Trendall is a well-known carpenter and for years has played in the First Regiment band.

NEW CEMENT WALKS MUCH APPRECIATED

Road Commissioner Makes Improvements in Various Parts of Village
—Work at Federal Building.

Warren L. Walker, town road commissioner, has men at work laying a cement sidewalk on the north side of Canal street from Maple street to Belmont avenue. The old sidewalk there has been in bad condition several years and the improvement will be much appreciated by those who have occasion to go to the Memorial hospital as well as those who live in that locality. A cement walk has just been laid on the east side of Linden street and a new cobblestone pavement has been laid in front of Wells fountain at the junction of Linden street and Putney road. Two of the granite posts in front of the fountain have been removed, making approach easier for teams. The new cement walk in front of the American building and up past the O. J. Pratt building is a marked improvement over the old tar concrete walk.

The cement walks in front of the federal building and on the north side of the building have been completed and opened to the public, and the work of putting in a cement driveway on the south side of the building is in progress.

We Can Save a Few Men \$175 On the HUDSON SUPER-SIX

Note These Important Facts
Prices Will Advance Soon

We have just been notified as follows about coming Super-Sixes:

There will be no change in models. The only changes, if any, will be minor refinements. But this year's production is nearly sold out—both of open models and enclosed. The new production—starting December 1—will be built from materials contracted this year, at enormous advance in cost. And, to maintain present standards, those cars must cost \$175 more.

We Have Cars Yet to Come

We have some cars yet due us at the present price. Some open, some enclosed. They will be sold at present prices while our allotment lasts. After that, every car shipped to us will cost the higher price.

You can save that difference—\$175—by buying your Super-Six now. And you'll get the same model as buyers get who buy after December 1.

Consider that fact well.

The Fair Hudson Policy

This is another striking evidence of the fair Hudson policy.

The Super-Six is a monopoly. This marvelous motor—adding 80 per cent to engine efficiency—is a Hudson patent.

Its supremacy is unchallenged. It has won every world's record which can possibly prove any quality you seek in a motor.

It has made the Hudson the largest-selling fine car in the world. Yet this year's demand was hardly half supplied.

Still this car has been sold at a minimum profit—at a price far below cars of lesser performance. The only advance for next year is the added cost of materials. And that advance will not apply until these materials are used.

Next Year Will be a Super-Six Year

The Super-Six this year came in as a stranger. It was, like all strangers, received with some question.

The next season will start December 1 with 25,000 Super-Sixes running. And with 25,000 enthusiastic owners.

It will start with performance records, which prove that this invention has doubled a motor's endurance.

It holds all stock-car records up to 100 miles. It holds the 24-hour record of 1819 miles. It won the Pike's Peak hill-climb against 20 famous rivals. It holds the ocean-to-ocean record—San Francisco to New York, made in 14 hours, 59 minutes less time than the next best record.

Next year the Super-Six, with all these records behind it will hold the peak place by itself.

Save by Deciding Now

If you want such a car—even next year—you will save \$175 by deciding now. Never again, in all probability, can you buy a Super-Six at these prices.

Come and select the style you want before we sell all our allotment.
